Education

SMK Yaspih Rajeg Tangerang, Banten
High School Diploma in Computer and Network Engineering July 2023 – June 2026
Academic Performance: Ranked 1st in class for 2 consecutive semesters (Avg: 85.5/100) 14, June 2026
Certifications: Certified Field Industrial Training (PKL) and Vocational Competency Certification (UKK)

Relevant Coursework: Network Infrastructure Administration, Network System Administration, Wide Area Network (WAN) Technology, and Network Services Technology.

Experience

Vocational Department (TKJ) – SMK Yaspih Rajeg Tangerang, Banten
Vocational Teacher Assistant & UKK Assessor July 2024 – June 2026

- Selected as a student assessor to evaluate and grade peers during the Vocational Competency Exam (UKK), operating at the same technical standard as vocational teachers.
- Assisted vocational teachers in managing laboratory practices, troubleshooting network issues, and mentoring lower-class students in computer network subjects for 2 years.
- Demonstrated advanced technical proficiency in configuring routers, switches, and managing network infrastructure.

PT. Mekarsari Digital Teknologi Tangerang, Banten
Field Technician Intern (PKL) January 2025 – April 2025

- Handled end-to-end Fiber to the Home (FTTH) deployment, including fiber optic splicing (fusion splicing) and optical network maintenance.
- Configured and provisioned ONT (Optical Network Terminal) and home routers to ensure stable internet connectivity for clients.
- Assisted in designing and pulling new fiber optic cables to deploy ODP (Optical Distribution Pack) lines for network expansion.

Activities

English Club – SMK Yaspih Rajeg Tangerang, Banten
Public Relations & Publicist July 2025 – June 2026

- Actively promoted club programs and successfully recruited new members through persuasive communication and targeted outreach.
- Engaged with students to build interest in English proficiency and community activities.

Skills & Interests

- **Technical:** Network Engineering & FTTH (Routing, Switching, Fiber Optic Splicing, ONT/ODP Configuration), AI Prompt Engineering, Basic Photo & Video Editing (CapCut, Alight Motion), Basic Photography & Videography.
- **Language**: Indonesian (Native), English (Conversational)
- **Interests:** Technology Trends & Innovations, Smartphone & Computer Hardware Specifications, Artificial Intelligence, Digital Gaming.

Projects

Independent Digital Projects 2024 – 2026

Web Development, Automation & AI Integration

- Developed responsive websites for business and portfolio needs, including RuzStore, with product search and filtering, wishlist, shopping cart, and checkout integrated directly with WhatsApp.
- Built a multi-user WhatsApp automation bot featuring financial tracking and to-do logging with Google Sheets, reminders and alarms, AI-powered receipt processing, media downloading, and a Gemini-based AI assistant that can execute commands expressed in natural language.
- Integrated Gemini-based AI into web projects as an interactive assistant, and used AI to support development, troubleshooting, research, content creation, and task automation.

Selected Project Highlights

- **RuzStore:** Responsive storefront with product discovery features and WhatsApp-connected checkout.
- **WhatsApp Automation Bot:** Multi-user workflow combining Google Sheets logging, reminders, AI receipt processing, media utilities, and natural-language AI assistance.
- **AI-Integrated Web Projects:** Gemini-powered interactive assistance and AI-supported development workflows.
